

Bonaf

Dear Kiwanis Club of Latonia

Thank you so much for awarding me with your scholarship. I am extremely grateful for all the help you have provided me with thus far with college and the morals that you have helped instill in my life. I am coming into my Junior year at Bryant University as an Actuarial Mathematics and Applied Analytics major. I am also starting to prepare for the first actuarial exam which is exciting because it shows just how far I have come, but also nerve racking because the actuarial exams are hard!

At Bryant this past year I was able help better the Bryant Community and Beyond in more ways than I thought I would be able to while in school. My passion to help and serve stems from my time in the Key Club and with the Kiwanis Club in high school. This year I am a Project Manager for an organization called Enactus. We help people solve problems by helping them instill plans for further growth. While we also provide service at the local level we try to assist nonprofits and other groups with writing business and Marketing plans, accounting and fundraising, and anything else they may need help with.

I also sit as a student member of the University's Sustainability Board. We make and implement decisions and changes that thus far have had a real impact on the Bryant Community. Right now we are in the final stages of securing funds for a Revolving Green Fund. This fund will be used to make changes to make the university more green and sustainable. The money that is then saved will be reinvested into another project. Green Revolving Funds right now are one of the most profitable ways for a University to invest portions of their endowment. This is exciting that I get to help see these changes through that will not only better the Bryant Community but the world as a whole! Thank you so much again.

Best,

Abby Teichert
